- Monitor
- Network Security

DATA STORAGE

- All-Flash and Hybrid Storage
- Data Protection Storage
- File and Object Storage
- Storage Automation and Manageme
- Storage for Enterprise Applications
- Storage for Virtual Machines (VMs) and Containers
- Storage Networking

SERVERS & SYSTEMS

- Rack Servers
- Tower Servers
- Bladed Infrastructure
- Density Optimized Servers
- Mission Critical Systems
- Integrated IT System Management Software
 - Compostable Systems
- Hyper-Converged Systems

END POINT SYSTEMS

- Laptops
- Desktops
- Workstations
- Monitors
- Point-of-Sale
- Printers
- Scanners

DIGITAL TRANSFORMATION SOLUTIONS

- We put smart to work. Although technology today is smart, you have to know how to apply it, train it, trust it, and make it secure.
- We support you to unlock the power of data with Cloud, Edge, AI, and IoT to improve software and systems engineering and advance your digital transformation.

SOLUTIONS:

- Cloud & Virtualization
- IT Service Management
- Digital Security
- Artificial Intelligence Solutions
- Big Data & Analytics

•

DATA CENTER SOLUTIONS

Our certified professionals are qualified to design and build high-availability, flexible, safe and efficient mission-critical data center environments for existing and new sites.

SOLUTIONS:

- Network/Storage/Server Enclosures and Accessories
- Power Distribution and Power Backup
- Alarm and Monitoring
- IT Cooling
- Early Fire Detections and Suppression
- Data Center Containers
- Data Center Security
- Micro Data Centers
